

## Production

### From practice experience to advanced research

### Tentative program

**March 4**

<i>Block 1, Practice experience</i>		
10:00 – 10:05	Introduction and presentation of speakers	Daniel Brandell
10:05 – 10:25	Quintus,	Carl-Johan Thell
10:25 – 10:45	Novo Energy, Challenges and opportunities with pilot line cell production	Reza Younesi
10.45 – 10.50	Paus	
<i>Block 2, Research</i>		Daniel Brandell
10:50 – 10:55	Introduction and presentation of speakers	Daniel Brandell
10:55 – 11:35	Scaling up sodium-ion battery cells: a sustainable journey from materials to cell prototypes	Ivana Hasa, University of Warwick
11:35 – 12:15	PFAS-free Ni-rich Li-ion positive electrodes: their performance in pouch- and 21700-type cells and strategies to mitigate their performance degradation	Rares Scurtu, Center for Solar Energy and Hydrogen Research (ZSW)
12:15 – 12:30	Concluding remarks, next workshop	Daniel Brandell
