

20th European Young Statisticians Meeting

Monday 14 August 2017 - Friday 18 August 2017

Uppsala University

Scientific Programme

Main speakers:

Monday: Jimmy Olsson (Royal Institute of Technology) - Sequential Monte Carlo: basic principles and algorithmic inference

Tuesday: Jenny Wadsworth (Lancaster University) - Non-limiting spatial extremes

Wednesday: Jane Hillston (University of Edinburgh) - Embedding machine learning in stochastic process algebra & Formal languages for stochastic modelling

Thursday: Hannu Oja (University of Turku) - Independent component analysis using third and fourth cumulants

Friday: Svante Janson (Uppsala University) - Random Networks

Speaker information:

Each speaker should prepare a 20 minute talk, using either a pdf/Powerpoint presentation or the blackboard. 30 minutes will be devoted to each talk, to allow for questions and discussion.
