

The 19th International Workshop on Neutrinos from Accelerators (NUFACT2017)

Tuesday, September 26, 2017

WG1+WG2: joint session - Room X (2:00 PM - 3:30 PM)

-Conveners: Kevin McFarland

time	[id] title	presenter
2:00 PM	[189] MINERVA cross section	SANDRO, Bravar
2:22 PM	[190] The T2K cross-section results and prospects from the oscillation perspective	NAKAMURA, Keigo
2:45 PM	[191] MicroBooNE cross section	LUO, Xiao
3:08 PM	[192] NOvA cross section	BAYS, Kirk

Friday, September 29, 2017

WG1+WG2: joint session - Room X (11:00 AM - 12:30 PM)

-Conveners: Francesca Di Lodovico

time	[id] title	presenter
11:00 AM	[200] Upgrade of the T2K near detector ND280: effect on oscillation and cross-section analyses	Mr LAMOUREUX, Mathieu
11:30 AM	[201] Reducing neutrino interaction uncertainties in oscillation measurements with the E61 experiment	VILELA, Cristovao
12:00 PM	[202] DUNE Near Detector with focus on cross section and prospects from the oscillation perspective	Dr DUYANG, Hongyue
