

# 3rd International Workshop of the Superconducting Magnets Test Stands

## Tuesday, 11 June 2019

### Operation of test facilities - Höggsalen, 10132 (14:10 - 16:05)

time	[id] title	presenter
14:10	[16] Challenges of a 1.9 K vertical cryostat design	SANTIAGO KERN, Rocio
14:30	[17] Cryogenic installations in SM18 : upgrade	GUILLOTIN, Nicolas
14:55	[18] Power converters and room temperature connections	YAMMINE, Samer
15:20	[19] Energy extraction systems and dump resistors	PANEV, Bozhidar
15:45	[20] Power leads for test stands	FEHER, Sandor

### Operation of test facilities - Höggsalen, 10132 (16:30 - 18:15)

time	[id] title	presenter
16:30	[21] Magnet safety system and supervision in FREIA	PEPITONE, Kevin
16:55	[22] Architecture of a magnet safety system using a CompactRIO and LabVIEW for the magnets STAARQ test	DE ANTONI, Philippe
17:30	[23] Electrical integrity of magnets and coils	MARINOZZI, Vittorio
17:55	[24] Magnetic measurements techniques mainly for Super FRS	GOLLUCCIO, Giancarlo
