

4th Uppsala workshop on Particle
Physics with Neutrino Telescopes
(PPNT19)

Welcome to the
4th Uppsala Workshop on Particle Physics
with Neutrino Telescopes

Welcome to Uppsala University

Founded in 1477

This building inaugurated in 1887 to replace the previous building, now the Gustavianum Museum (just across the park, before the cathedral)

Uppsala University had ~1500 students at the time and all its activities, both academic and administrative were housed in this building.

→ More about it this evening in the guided tour

Today Uppsala University has ~40000 students, 4 Nobel Prize winners and several known “faces”:

Olof Rudbeck, 1660 (limphatic system, anatomical theater)

Anders Celsius, 1730 (first universal temperature scale,
with 0 at the boiling point of water)

Carl von Linnæus, 1741 (catalogue system of plants and animals)

Anders Ångström, 1858 (spectroscopy)

...

Nobel Prizes:

Allvar Gullstrand (1911, Medicine)

Mane Siegbahn (1924, Physics, x-ray spectroscopy)

Theodor Svedberg (1926, Chemistry)

Kai Siegbahn (1981, Physics, laser spectroscopy)
