4th Uppsala Workshop on Particle Physics with Neutrino Telescopes

PPNT19

www.indico.uu.se/e/ppnt19

The workshop aims to discuss the physics, signatures, experimental techniques, current results and perspectives of using existing and planned large neutrino telescopes for particles physics topics: **searches for dark matter, monopoles, micro black holes, Lorentz invariance test, q-balls, nuclearites...**

Advisory committee:

M. C. González-García (Stony Brook/ICREA)

A. Kusenko (UCLA)

S. Sarkar (Oxford)

M. Spurio (Bologna)

J. Zornoza (Valencia)

Organizer: Carlos Pérez de los Heros (Uppsala)

Contact: ppnt19@physics.uu.se

Universitetshuset. Uppsala, October 7-9, 2019
