

EXCELLENCE SEMINAR DECEMBER 7 (15:15-16:45) 2021

AGENDA

15:10 – 15:15	<i>Welcome to join via Zoom to ensure your connection!</i>	
15:15 – 15:25	Introduction	Kristina Edström, BATTERY 2030+, UU
15:25 – 15:40	Introducing speaker	Tejs Vegge, BATTERY 2030+, DTU
15:40 – 16:25	Excellence seminar: Design Better Batteries Faster: Forecasting Performance & Ageing	William Chueh, Stanford University
16:25 – 16:40	Q&A	William Chueh, Stanford University
16:40 – 16:45	Summary	Tejs Vegge, BATTERY 2030+, DTU

[WILLIAM CHUEH](#), assistant professor of materials science and engineering and center fellow at [Stanford Precourt Institute for Energy](#), recently received the Materials Research Society's 2018 Outstanding Young Investigator Award for his groundbreaking research in ionic and electronic charge transport and interfacial chemistry.
