

EXCELLENCE SEMINAR

FEBRUARY 1 (15:30-17:00) 2022

AGENDA

15:25 – 15:30	<i>Welcome to join via Zoom to ensure your connection!</i>	
15:30 – 15:45	Introduction	Kristina Edström, BATTERY 2030+, UU
15:45 – 16:30	Excellence seminar: New non lithium based battery technologies	M. Rosa Palacin, Institut de Ciència de Materials de Barcelona (ICMAB-CSIC)
16:30 – 16:55	Q&A	M. Rosa Palacin, Institut de Ciència de Materials de Barcelona (ICMAB-CSIC)
16:55 – 17:00	Summary	Kristina Edström, BATTERY 2030+, UU

[M. Rosa Palacin](#) is a Research Professor at the [Institut de Ciència de Materials de Barcelona \(ICMAB-CSIC\)](#). Her career has focused on solid state chemistry and electrochemistry applied to batteries, and has covered a wide diversity of technologies. She has always placed emphasis on developing fertile cooperation scenarios between basic-oriented research and industry, and often performed research under direct industrial contracts. She has recently been named ECS fellow and received the IBA Research Award 2021.
